EXPLANATION

Section 2104 of the CARES Act of 2020 provides for a temporary emergency increase in unemployment compensation (UC) benefits, referred to as the Federal Pandemic Unemployment Compensation (FPUC) program. This program provides an eligible individual with \$600 per week in addition to the weekly benefit amount he or she receives from certain other UC programs. The additional \$600 payments to eligible individuals each week is 100% federally funded.

Section 2102 of the CARES Act of 2020 provides for additional unemployment assistance to those individuals not eligible under the state UC program. This program is referred to as the Pandemic Unemployment Assistance (PUA) program and provides an individual not eligible for UC with a minimum of \$168 and a maximum of \$427 weekly benefit amount. The PUA program is 100% federally funded.

Section 2107 of the CARES Act of 2020 provides an additional 13 weeks of unemployment benefits to those eligible individuals who may exhaust their state UC or PUA program benefits. This program is referred to as the Pandemic Emergency Unemployment Compensation (PEUC) program and provides an individual who has

exhausted all other benefits with an additional 13 weeks of benefits. The PEUC program is 100% federally funded.

USDOL-ETA made additional federal funding available to state workforce agencies for the implementation of these new programs. USDOL-ETA offered the additional funding in the form of supplemental budget requests. NHES submitted the necessary applications and was approved for the supplemental funding to support the system modifications necessary to administer the new programs.

The supplemental funds authorized provide for the development and implementation of the system code required to make the additional benefit payments to claimants as well as to properly report such activity as required to USDOL-ETA. These system modifications have already been undertaken with respect to FPUC and PUA and are ongoing with PEUC. Although, with the additional benefits available under PEUC, NH has been able to utilize the Extended Benefits program to pay these individuals for these additional weeks with the understanding that once the modifications for PEUC are complete then they will be transferred to the correct program for federal reimbursement purposes.

Due to the speed and significance with which the COVID-19 pandemic impacted the NH workforce, NHES was not able to request approval in advance. USDOL-ETA recognized that due to unprecedented claim volumes resulting from COVID-19 states would submit requests for funding after-the-fact.

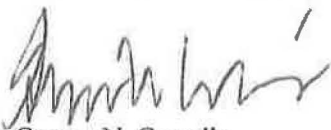

The funding will be used to support the contract amendment necessary to compensate Symbiosys Solutions the vendor that has conducted all of these system modifications as having been the vendor responsible for maintenance, modifications and enhancements to the unemployment system since 2009..

NHES is requesting authorization to accept and expend \$3,560,300 in Federal funds from USDOL-ETA, and to budget the funds as follows:

Class 038 Technology - Software will be used to develop and implement the necessary system code to process and report the new unemployment benefit program payments.

There are no General Funds required with this request. In the event that these funds become no longer available, General funds will not be requested to support these expenditures.

Respectfully submitted,

George N. Copadis
Commissioner
