SUBJECT: K-12 Education Funding for COVID 19 related expenditures

A number of federal funding programs provide resources to local educational agencies, LEAs, in response to COVID19.

CARES ESSER FUNDING

Total \$33.9 Million directly to Schools

See attached CARES Act ESSER Summary and School Spending Summary

On May 10, 2020, LEAs including both District and Chartered Public Schools received an allocation from the NHDOE based on their ESEA Title I allocation.

Broad, flexible uses of funds include: activities to prevent, prepare for, and respond to COVID-19; activities to address the unique needs of low-income students, students with disabilities, English learners, racial and ethnic minorities, foster care youth and students experiencing homelessness; providing meals for eligible students; providing technology for online learning to all students, including the purchasing of technology; mental health services and supports; and activities related to summer learning and supplemental afterschool programs; any activities authorized under ESEA, the Individuals with Disabilities Education Act (IDEA), the Adult Education and Family Literacy Act, the Carl D. Perkins Career and Technical Education (CTE) Act and Subtitle B of Title VII of the McKinney-Vento Homeless Assistance Act.

Equitable participation requirements apply meaning that LEAs must reserve the proportion of funds equivalent to the number of children attending private schools in the school district compared to all children in the school district. Funding does not go to private schools, rather appropriate, allowable services are provided by the resident district of the children to the nonpublic school).

In addition to providing funding, the CARES act extended the period of allowably for existing federal elementary and second education grants including Title 1, Title 2, Title IVA and IDEA, that would otherwise expire and lapse as of September 30, 2020 to September 30, 2021 and increased flexibly in these grants including waiving caps on technology purchases and expanding professional development to accommodate needs associated with providing remote learning.

iLearnNH Statewide- ZOOM and Learning Management System and ZOOM

Total \$6.2 Million over three years

The NH DOE has partnered with USNH and CCSNH to purchase a statewide Learning Management System (LMS) which will assist districts with in person, hybrid and remote learning. The system will provide districts a no cost solution to the current pandemic as well as future unforeseeable events that may arise by allowing educators to conduct instruction regardless of their location or their student's location. The LMS will include access to Zoom as well as other software tools. The new Zoom agreement provides the opportunity for districts to receive a prorated rebate from Zoom for any licenses that they currently own once they implement the LMS platform resulting in potential savings statewide of hundreds of thousands of dollars.

Connecting New Hampshire – Emergency Broadband Expansion Program

Total \$50 Million

The Governor has authorized the allocation and expenditure of up to \$50 million in emergency funding from the CARES Act Coronavirus Relief Fund for the purpose of expanding broadband and internet access in unserved areas in New Hampshire. The Connecting New Hampshire – Emergency Broadband Expansion Program will address these challenges for students participating in remote learning, as well as other Granite State families utilizing the internet to access telehealth services, including vital mental health services. The program will also provide Granite State families with expanded access to vital public health information as well as additional opportunities to connect with other family members that are otherwise cut off due to the COVID-19 pandemic.

Municipal Relief Fund (MRF)

Total \$32 Million

See attached PAYMENTS MADE TO MUNICIPALITIES

The MRF is a reimbursement program, with each municipality allocated a maximum amount for which reimbursement requests may be submitted to cover COVID-19 related expenses incurred between March 1, 2020 and August 31, 2020 and not covered by FEMA or another federal program. School districts can work with their local municipalities to apply for MFR funding. Additional MRF funding may be provided after August 31, 2020.

The MRF may be used for a variety of COVID-19-related expenses incurred by local school districts including, building disinfecting and modifications for social distancing, telework costs for remote municipal operations, payroll costs for increased wages and benefits required under the Families First Coronavirus Response Act, the 25 percent match on FEMA eligible costs, and more.

Compensatory Education CARES Funding

Total \$3Million (Estimated)

The state has committed to reserving an estimated \$ 3 million from state CARES Act funding to be used to provide funding directly to school districts for costs associated with compensatory education.

“Compensatory Education” is a term that is generally used to describe the equitable remedy for the denial of a student’s rights to a Free and Appropriate Public Education (FAPE). Individuals with Disabilities Education Act (IDEA) references compensatory education found in the “Adoption of State Complaint Procedures” section of the regulations 34 CFR 300.151. Although the majority of compensatory education has been provided through litigation, compensatory education may also be awarded as a result of a special education complaint investigation. It is through this process that the Commissioner of Education considers directives ordering specific corrective or remedial actions including compensatory education ((RSA 186-C:5,V,(d)(4)). Additionally, some districts have chosen to offer compensation for the student with a remedy outside of a hearing or other formal resolution process.

In cases where the decision is made for a district to provide compensatory education, some examples of compensatory education have included:

- Compensatory Hours (session-for-session of a special education service)
- Training for school district personnel
- Reimbursement for past services

Determination meetings pursuant to Emergency Order # 48 are required to be completed by within 30 days of the start of school and funding will be distributed proportionally accordingly to schools’ assessed of costs.

Food and Nutrition Programs CARES Funding

Total \$47 Million

The NHDOE received an additional \$47 million of CARES Act funds through USDA is for reimbursement of claims from schools and institutions for meals that are provided to children. The use of the money is for the period, March 16, 2020 – August 31, 2020. U.S. Department of Agriculture extended flexibility for schools to provide free meals to ALL students in ALL areas. Under normal circumstances, USDA only reimburses schools in low-income areas, or for students from low-income families. The extension of nationwide waivers through the summer will allow all New Hampshire schools to provide free meals to every student without having to check income eligibility

PPE

The State Emergency Operations Center (SEOC) provided personal protective equipment (PPE) to K-12 schools from March 8 to August 21. During that time, there were 4,214 orders that came into the SEOC for PPE most of which supported summer educational programs. The PPE that was provided to schools at no cost is listed below. In preparation for the upcoming school year, the SEOC in collaboration with the NH Department of Education and Administrative Services is providing schools the opportunity to utilize State contracts for purchasing PPE that may be needed during the upcoming school year. The State has negotiated and established contracts and Blanket Purchase Orders (POs) for these purposes. Schools may leverage economy of scale to purchase PPE through the State contract by using these POs.

CARES Act ESSER Summary

May 11, 2020

The CARES Act was signed into law on March 27, 2020. It includes the Elementary and Secondary Schools Emergency Relief (ESSER) funds to help K-12 educational entities prevent, prepare for, and respond to impacts of COVID-19.

ESSER Fund: General Information

Although ESSER funds are distributed to districts using a proportional distribution to the FY 2019-2020 Title I, Part A allocations, they are not Title I, Part A funds and are therefore not subject to the Title I, Part A requirements. ESSER funds may be used to support any school in a district regardless of its Title I status. Further, although ESSER funds are not subject to the Title I, Part A supplanting prohibitions, meaning ESSER funds may take the place of State or Local funds for allowable activities, they are subject to equitable services and maintenance of effort requirements.

ESSER is its own program intended to help with the COVID-19 response. As such, a district must submit a separate grant application to the New Hampshire Department of Education (NHDOE) in order to receive ESSER funds. Example of activities are listed below. Once a district has had its ESSER grant application approved by the NHDOE, funding can be accessed through the grants management system and used for FY20 allowable costs dating back to March 13, 2020, the date the President declared the national emergency due to COVID-19, and funding will remain available for allowable costs through September 30, 2021.

Similar to other Federal grants held by a district, the district's management and expenditure of the ESSER funds will be subject to both fiscal and programmatic compliance monitoring by the NHDOE. In addition, ESSER funds are subject to audit requirements under the Single Audit Act and to review by the Government Accountability Office. The United States Department of Education's Office of the Inspector General may audit program implementation, as may any other federal agency, commission, or department in the lawful exercise of its jurisdiction and authority.

ESSER Funds ALLOWABLE Activities:

The purpose of the ESSER fund is to provide districts with emergency relief funds to address the impact COVID-19 has had, and continues to have, on elementary and secondary schools that are providing educational services and developing plans for the return to normal operations. The ESSER grant provides districts considerable flexibility in determining how best to use ESSER funds. Districts are encouraged to target ESSER funding on activities that will support remote learning for all students, especially disadvantaged or at-risk students and their teachers. Funds may be used for a wide variety of purposes, including but not limited to:

- Educational technology (internet connectivity, hardware, devices, software, tech support services, etc.)
 - Supplies and services that enable remote learning (printing, telephonic support, translation services, etc.)
 - Mental health services and supports
 - Activities to address the unique needs of low-income children, students with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including outreach and service delivery
 - Diagnostic intake assessments to gauge students' knowledge and skills (i.e. early literacy screening, etc.)
 - Assessing learning gaps to inform teaching, and addressing those gaps
 - Planning and implementing summer learning and supplemental afterschool programs
 - Providing principals and other school leaders with resources to address individual school needs
 - Training and professional development for district staff on any topic from effective remote learning strategies to sanitation and minimizing the spread of infectious disease when in-person school resumes
 - Supplies and services to sanitize district facilities; personal protective equipment (PPE)
 - Planning for and coordinating during long-term closures, including how to provide meals, technology for online learning, guidance for carrying out IDEA requirements, and providing educational services consistent with applicable requirements
 - Procedures and coordination systems to improve district preparedness and response efforts to COVID-19
 - Other activities necessary to maintain district operations and services and to continue to employ existing district staff.
 - Any activity allowable under ESSA, IDEA, Perkins, McKinney-Vento, and AEFLA
- Examples of allowable activities from each are below (please note that this is not a comprehensive list):

Program	General	Activities
Title I, Part A	Helping Disadvantaged Students	Laptops, software, hotspots, supplies for Title I students, salaries for Title I teachers and paraprofessionals
