EXPLANATION

Section 2102 of the CARES Act of 2020 provides for additional unemployment assistance to those individuals not eligible under the state UC program. This program is referred to as the Pandemic Unemployment Assistance (PUA) program and provides an individual not eligible for UC with a minimum of \$168 and a maximum of \$427 weekly benefit amount. The PUA program is 100% federally funded.

Section 2107 of the CARES Act of 2020 provides an additional 13 weeks of unemployment benefits to those eligible individuals who may exhaust their state UC or PUA program benefits. This program is referred to as the Pandemic Emergency Unemployment Compensation (PEUC) program and provides an individual who has exhausted all other benefits with an additional 13 weeks of benefits. The PEUC program is 100% federally funded.

USDOL-ETA made additional federal funding available to state workforce agencies to assist with efforts to prevent and detect fraud and identify theft and to recover fraud overpayments associated with these new

programs. USDOL-ETA offered the additional funding in the form of a supplemental budget request. NHES submitted the necessary applications and was approved for the supplemental funding to support the system modifications necessary to further enhance the New Hampshire Unemployment Insurance System (NHUIS), the state's unemployment benefit payment system.

The supplemental funds authorized provide for the expansion and improvement of existing integrity functions currently utilized by NHES. InvestiCase, the fraud prevention and detection module within NHUIS, will be further enhanced to provide staff with additional tools to better track, detect, and prevent fraud in both the PUA and PEUC programs. PUA claim-specific screens will also be added to NHUIS to assist with necessary and new data collection for self-employed individuals. Additionally, NHES will be able to coordinate with and participate in the Integrity Data Hub (IDH) operated at no cost to states by the National Association of State Workforce Agencies on behalf of the US Department of Labor. IDH is a secure, robust, coordinated platform that allows states to work together to detect and prevent unemployment fraud.

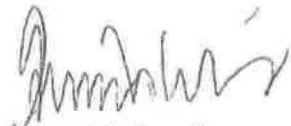

The funding will be used to support a contract amendment with SymbioSys Solutions, the vendor responsible for maintenance, modifications and enhancements to NHUIS since 2009.

NHES is requesting authorization to accept and expend \$1,215,000 in Federal funds from USDOL-ETA, and to budget the funds as follows:

Class 038 Technology - Software will be used to enhance NHUIS by expanding and improving upon existing integrity functions, instituting new data-gathering and evaluation tools, and allowing NH to fully participate with the Integrity Data Hub.

There are no General Funds required with this request. In the event that these funds become no longer available, General funds will not be requested to support these expenditures.

Respectfully submitted,

George N. Copadis
Commissioner
